

M 1500 CSF

M 1500 CSH - Roll-in Refrigerator - Remote

Equipped with: Right hand hinged reversible door with positive handle and lock

Roll-in cabinets are designed for temporary refrigerated storage within a production line, for example between blast chillers and refrigerated coldrooms. By utilising roll-in cabinets the refrigeration process is unbroken, ensuring time spent on manual handling and re-loading is kept to a minimum.

Roll-in cabinets are available as refrigerator or freezer, the former with two optional temperature ranges to choose from.

The refrigerators can be supplied with or without a floor and with isolated or glass doors. The freezers are available with isolated door and floor.

The cabinets are available with either an integrated refrigeration system or supplied for connection to a remote refrigeration system.
