## Bakery Line

### Active Cooling 450-460x600

Bakery Line Active Cooling is a light and robust cart for holding and transporting chilled bakery goods with 450-460x600 trays capacity. Detachable U-shaped runners offer safe handling, easy cleaning and optimal temperature distribution. Infinitely variable temperature setting is performed via a digital display which indicates when the selected temperature is reached. Ergonomic push/pull handles and big castors for easy movement. A ScanBox is a Scandinavian designed product made for both back and front of house, especially with the Signature option with the possibility to customize the exterior design. Compressor cooling is standard in Bakery Line.
