

# Skanos

Heated Meal Delivery &  
Beverage Solutions for Aged Care

For aged care facilities aiming to improve food service delivery and enhance satisfaction for residents and their families, Skanos offers much more than superior equipment.

# Why Skanos?

Skanos expert team partners with Aged Care facilities to understand challenges and seamlessly integrate equipment solutions into existing processes and workflows, ensuring smooth implementation and long-lasting success.

01

## Client- focussed

After-sales support and service is our priority.

02

## Readily stocked product lines

Committed to providing immediate and effective solutions for our clients.

03

## Constantly innovating

Cutting-edge solutions to support our customers' needs

04

## Exceptional Quality

Dedicated to supplying products of the highest quality, with top-tier features.

# ScanBox

" Our boxes are designed to reflect Scandinavian quality, combined with **style, function, maneuverability** and **versatility** "

# ScanBox

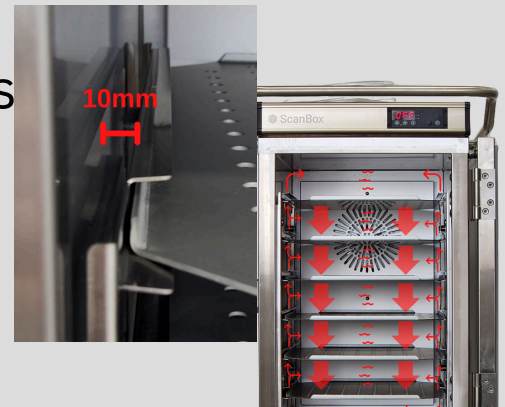

## Features

**Central braking system** as standard, for ease of use.

Shelf runners are positioned 10mm from the side of the unit, for seamless airflow which ensures **even distribution of heat**.

They are detachable and dish-washable, for **easy cleaning**.

U-Shaped rack runners **ensuring tilt-prevention**, securing the tray when the tray is pullout out, past the halfway point.

**Push/ pull handles** on the rear of the unit.  
Robust Stainless steel framing, designed for **longevity**.

160mm non-marking, **high quality double bearing castors**

**Moisture Control Valve**

# Scanbox BasicLine

The option for facilities that need a unit with high-quality construction and performance but require only slightly fewer features.

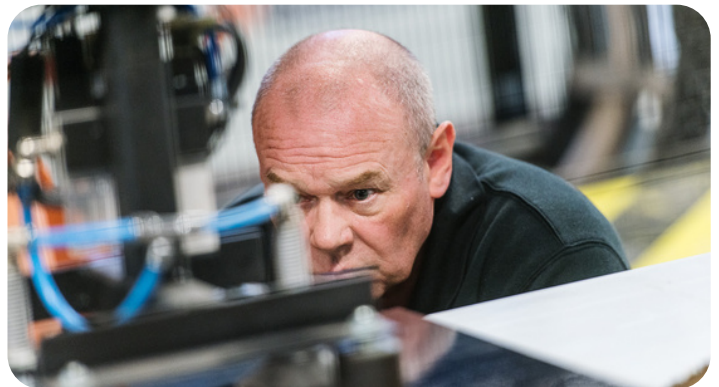

1. **Exceeds the capabilities** of other 'standard' products on the market.
2. **Budget-friendly** without compromising on key features.
3. **Engineered to our high standards** for unmatched durability and reliability.
